Portfolio: rafigq.github.io/Gabriel_Qureshi_Portfolio

Live client result	Co-led the MMU Library prototype. Some of our changes were adopted on the live library site.
Design systems	Built a Figma design system with variables: primitives, semantic tokens, light and dark modes.
Accessibility in code	Audited a site against WCAG, then fixed button contrast from 4.14:1 to 5.07:1 in HTML and CSS.

PROFILE

Third-year Web and UX Design student at Manchester Metropolitan University (graduating 2027), looking for a graduate role in UX, product design or design systems. I design from research, not assumptions, work in Figma using design systems, and build accessible interfaces in HTML and CSS.

SKILLS

Design	Figma (prototyping, components, variables, design tokens), UI design, responsive design, brand identity
Research	User interviews, usability testing, personas, sitemaps, wireframes, information architecture
Accessibility	WCAG contrast and alt text audits, Equality Act (2010)
Build	HTML, CSS, WordPress, VS Code
Adobe CC	Illustrator, Photoshop and other Adobe Creative Cloud software

PROJECTS

Collaborative Library Redesign · live client, group project — **Case study**

- Co-led a responsive Figma prototype for the MMU Library website, based on student interviews and usability testing.
- Ran usability tests as interviewer and transcriber: 3 students did the same 3 tasks on the live site and our prototype.
- Relabelled and shortened the "Referencing and study support" menu. The library adopted some of our changes on its live site.
- Built the design system as Figma variables with primitives, semantic tokens and light and dark modes.

Library Support Ticket Rework · pair project, self-initiated — **Case study**

- Designed a support ticket form that is less daunting than writing an email.
- Made the prototype responsive with Figma components and checked it against accessibility standards.
- Co-built light and dark mode prototypes in HTML and CSS with my partner.
- Co-wrote the proposal and presented it to MMU Library staff.

LCA Brand and WordPress Site · individual university brief — **Case study**

- Designed a logo, moodboard, colour palette and poster series in Adobe Illustrator for a fictional leopard conservation charity.
- Built its five-page WordPress site and audited it against WCAG: buttons failed AA contrast (4.14:1) and images lacked alt text.
- Rebuilt the site in HTML and CSS with both problems fixed: button contrast of 5.07:1 and alt text on every image.

EDUCATION

BSc (Hons) Web and User Experience Design · Manchester Metropolitan University — 2024 to 2027

A-Levels: Graphic Design, Art & Design, English Literature · Loreto College — 2022 to 2024

8 GCSEs including English and Mathematics · Priestnall School — 2022

WORK EXPERIENCE

Customer Advisor · B&Q, part-time — 01/2025 to 07/2025

- Resolved customer enquiries and complaints promptly and accurately, working with colleagues on cases I could not fully resolve.

Freelance Graphic Designer · Wargeh Cafe commission — 06/2024

- Designed a cafe menu in Illustrator and Photoshop from the client's brief, then acted on their feedback to reach approval.

Cafe Assistant · Wargeh Cafe, part-time — 07/2023 to 07/2024

- Processed customer orders efficiently as part of a team and communicated clearly with colleagues.

Kitchen Assistant · Valentino's — 02/2023 to 08/2023

- Kept a kitchen section clean and organised and monitored stock levels.
